Centros de Integración juvenil, A.C, (2023). Reporte del Sistema de Información Epidemiológica del Consumo de Drogas. Droga de mayor impacto reportada por consumidores de drogas ilícitas solicitantes de tratamiento en Centros de Integración Juvenil al 2° semestre de 2022. Ciudad de México. México: CIJ.

Disponible en: <http://www.cij.gob.mx/programas/Investigacion/Epidemiologica.asp>

Presentación

Como parte del seguimiento epidemiológico del consumo de drogas en pacientes de primer ingreso a tratamiento en Centros de Integración Juvenil (CIJ), el presente documento presenta la actualización de las tendencias observadas en la **droga de mayor impacto** en los últimos 12 meses de los consumidores de drogas ilícitas que ingresaron entre el segundo semestre de 2004 y el segundo semestre de 2022.

Los datos se obtuvieron del formato de “Entrevista Inicial” del Expediente Clínico abierto a cada consumidor de drogas que ingresa por primera vez a tratamiento a CIJ. El registro de la información lo realiza el personal del Equipo Médico Técnico designado para ello en cada una de las unidades de atención. Cabe señalar que a partir del primer semestre de 2021 la información proviene del Sistema CIJ 3.0, donde se amplió el registro de sustancias.

La información que se presenta es a nivel nacional y para cada una de las entidades federativas en las que CIJ cuenta con al menos una unidad operativa y donde se brinda el servicio de tratamiento.

Las drogas que se incluyen en las tendencias del consumo son: tabaco, alcohol, cannabis (mariguana/hachís), inhalables, cocaína (clorhidrato de cocaína), crack, metanfetaminas, éxtasis (MDMA y sustancias con efectos similares), Benzodiazepinas (incluye Royhpnol), heroína y alucinógenos.

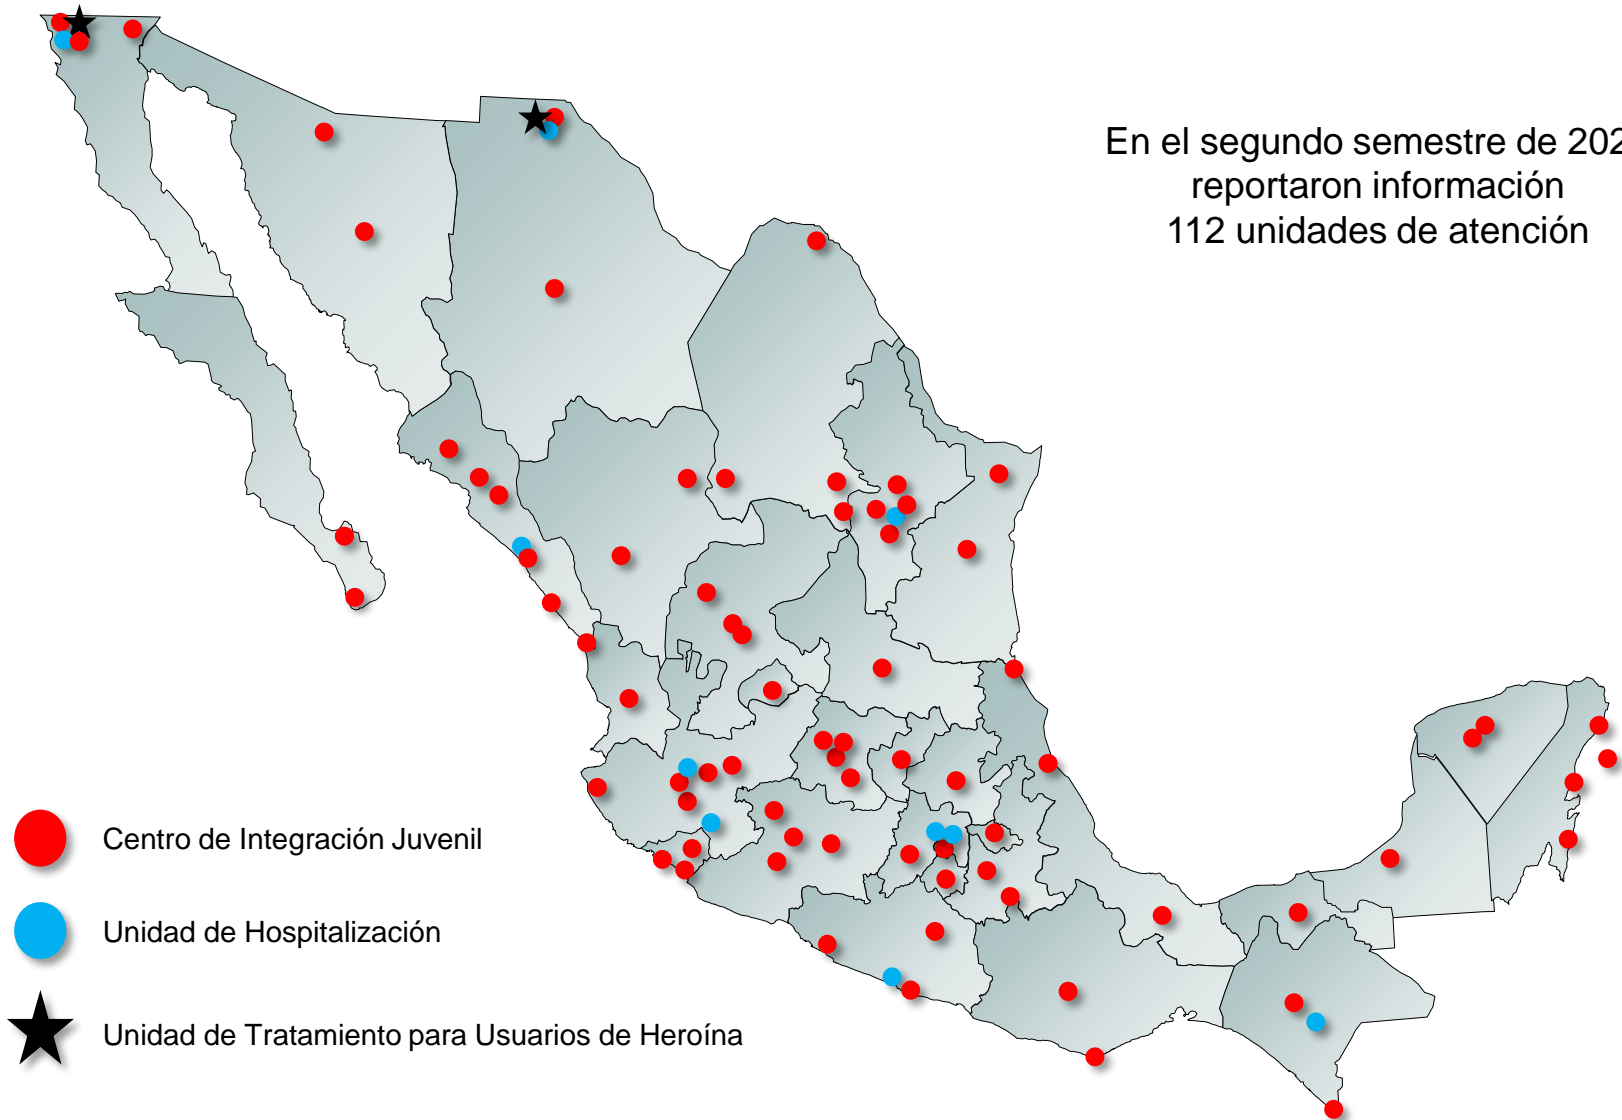

Cabe mencionar que a lo largo de los años las tendencias del consumo se han visto influenciadas por diversos motivos y que hay que tener en cuenta al momento de su interpretación. Para el primer semestre de 2010 se ajustó el formato de «Entrevista Inicial» y se incorporó el expediente clínico a un sistema electrónico. En el año 2020, las políticas sanitarias establecidas por el gobierno para contener la pandemia del Covid-19 ocasionó un menor registró de nuevos ingresos a tratamiento. En el primer semestre del 2021 se ajustó nuevamente el formato de «Entrevista Inicial» y se implementó un nuevo sistema de captura (Sistema Cij 3.0). Durante el primer semestre del año 2022 se levantaron las restricciones de movilidad establecidas por el gobierno por la pandemia del Covid-19.

Catálogo general de sustancias psicoactivas

Sustancia de	2004-2020	2021-2022
Tabaco	Tabaco	Tabaco; Nicotina en dispositivo electrónico
Alcohol	Bebidas alcohólicas	Bebidas fermentadas; Bebidas destiladas; Alcohol puro ("alcohol del 96")
Cannabis	Mariguana, Hachís	Mariguana "estándar"; Mariguana modificada, con alto nivel de THC; Hachís – Resina; Hachís - Aceite o miel
Inhalables	Solventes y removedores, Pegamentos, Esmaltes y pinturas; Otros inhalables	Solventes y removedores, Pegamentos, Esmaltes y pinturas; Gasolinas y combustibles; Otros inhalables
Cocaína	Cocaína (polvo blanco)	Cocaína en polvo blanco
Crack	Crack	Crack
Metanfetaminas	Metanfetaminas	Metanfetaminas: cristal; Metanfetaminas: hielo; Metanfetaminas: "Metas"
Éxtasis	Éxtasis y otras metanfetaminas alucinógenas	Éxtasis; Drogas de diseño con efectos similares al éxtasis; Piperazinas con efectos similares al éxtasis; Aminoidanos
Benzodiacepinas	Benzodiacepinas, Rohypnol	Benzodiacepinas, Rohypnol
Heroína	Heroína	Heroína blanca; Heroína negra o morena
Alucinógenos	LSD, Plantas alucinógenas, Otras drogas alucinógenas o disociativas	LSD; LSA; Hongos alucinógenos; Peyote (mezcalina); Salvia divinorum u otras variedades; Ololiuhqui; Floripondio; Ayahuasca; Otras plantas con efectos alucinógenos o disociativos; Fenciclidina; Análogos del PCP; Ketamina; Dextrometorfano, DMT; Triptaminas psicodélicas derivadas y análogas del DMT; Grupo 2C x; Grupo DO x; Grupo NBOMe; Otras drogas de diseño con efectos psicodélicos; Otras sustancias con efectos psicodélicos.

Unidades de atención

En el segundo semestre de 2022
reportaron información
112 unidades de atención

Droga de mayor impacto reportada por consumidores de drogas ilícitas solicitantes de tratamiento en CIJ Nivel Nacional 2° semestre de 2004 - 2° semestre de 2022
